

Enabling a paperless future

## ScripTouch<sup>®</sup> Magstripe LCD

ST1525 ProScript  
ST1526 EasyScript

### Features

- 1 3-track Magstripe Reader
- 2 Durable Casing
- 3 Mounting Holes
- 4 USB Interface
- 5 Big Non-Slip Rubber Feet
- 6 No-Scratch Glass Surface
- 7 Active Battery-Free Pen

Rated for More than  
1 Million Signatures!

## ScripTouch® Magstripe LCD

ST1525 / ST1526 Specifications

<b>Product Type</b>	Electronic signature pad with integrated display and magstripe card reader
<b>Active Signature Area</b>	4.25" x 1.15" (107.9 x 29.2 mm)
<b>Signature Display</b>	Backlit Monochrome LCD (240 x 64 pixels)
<b>Mag. Stripe Reader</b>	3-track bi-directional
<b>Readable Card Types</b>	ANSI / ISO / AAMVA
<b>Pen Type</b>	Active battery-less tethered pen
<b>Sensing Technology</b>	Scriptel StaticCap™ capacitive sensing
<b>Min. Sig. Resolution</b>	500ppi
<b>Min. Sig. Sample Rate</b>	120pps
<b>Product Dimensions</b>	6.25" x 5.2" x 1.6" (158.7 x 132.1 x 406 mm)
<b>Data Interface</b>	USB 2.0 (standard A-type connector)
<b>Power Supply</b>	USB bus-powered, no separate external power supply needed
<b>Thin Client / RDP</b>	<b>Citrix Ready</b> and <b>ScripTouch Remote</b> (USB virtualization tool) available
<b>Operating Systems</b>	Support available for Windows, Mac OS, Linux
<b>Warranty</b>	3 Year
<b>Product Webpage</b>	<a href="http://scriptel.com/products/magstripe-lcd-signature-pad">scriptel.com/products/magstripe-lcd-signature-pad</a>
<b>Model Number and Interfaces</b>	ST1525 ProScript device interface, ST1526 EasyScript device interface

# Two Device Interfaces, One Network Platform

Citrix Ready and Terminal Services supported

<b>ProScript Device Interface</b>	ScripTouch ProScript signature pads use a generic HID interface that enables two-way communication with the device. Several software libraries are available for development under the ProScript API.
<b>EasyScript Device Interface</b>	ScripTouch EasyScript signature pads use keyboard emulation to transmit captured signature data. This enables signature capture in any OS, with any browser, without client PC installs and administrative headaches that come with the use of Java applets or ActiveX controls. The latest version, EasyScript 3.0, enables realtime signature rendering and the ability to switch between ProScript and EasyScript interfaces.
<b>OmniScript Network Platform</b>	The ScripTel OmniScript universal signature integration platform enables remote management of a ScripTouch signature pad over a network and provides a higher level API (requires devices with ProScript interface).

All ScripTel signature pads are verified Citrix Ready. In Citrix XenApp and XenDesktop and in other RDP-based virtualization architectures, ScripTel's optional ScripTouch Remote software enables trouble-free administration and operation of signature pads attached to the clients.

Important Features and Software Support	ProScript	EasyScript
Windows, Mac OS, Linux	✓	✓
No Client Install		✓
Network Enabled Universal Signature Platform - OmniScript	✓	
Virtualization and Thin Client Support (including Citrix Ready)	✓	✓
Word, Excel, Adobe, Open Office, Libre Office Plugins, and Google Add-ons	✓	✓
.NET, Cross-Platform C, Java, JavaScript, PHP, ASP.NET	✓	✓
Sign and Save Application, including CLI for Custom Automation	✓	✓
TWAIN Data Source	✓	✓
OPOS Service Object	✓	

**Scriptel mSign® Mobile:** A new virtual signature pad application from ScripTel that turns any mobile device (iOS or Android) into a ScripTel signature pad. Allows use with any ScripTel software or any software from third party vendors that support ScripTel.

**Desktop 1x5**  
ST1400 / ST1401

Scriptel Corporation was founded in 1982 and is based in Columbus, Ohio. The company quickly became the industry leader in digitizer components and electronic signature capture. In the late 80's, Scriptel launched the PenWriter, the first computer peripheral that provided high quality pen input on a device with its own LCD display. For the first time, this allowed users to see and use their own handwriting on their computers.

Today, Scriptel Corporation is the leader in capacitive pen digitizing technology, a very durable and cost-effective way to electronically simulate pen and paper. The company holds several patents and has deployed its technology in over three million solutions used around the world, mostly in the demanding retail point-of-sale environment. Virtually everyone that has signed on a payment terminal for a credit card purchase sometime in the past 15 years has used a Scriptel pen at some point in time.

Beginning in 2010, Scriptel entered the digital workflow market with the ScripTouch ST1500, a dedicated electronic signature pad that provides high reliability with three year warranty, and has since launched a full line of ScripTouch signature pads that meet important market needs, backing these up with excellent service and software integration support.

In the summer of 2015, Scriptel achieved two important milestones. First, it launched its second generation EasyScript interface that adds signature data streaming and higher resolution for a better user experience to its highly successful "no client install" API for browser-based applications. Second, it achieved Citrix Ready status for all signature pads and launched ScripTouch Remote, optional software for trouble-free administration and operation of signature pads on Citrix XenApp, XenDesktop and other RDP-based virtualization architectures.
