## The Best Choice is Scriptel!

Our reliability, warranty, software, and support are unsurpassed in the eSignature industry. Learn why Scriptel is the best choice for eSignature capture!

### The Most Rugged Durability:

#### Glass Signing Surfaces

All of Scriptel's LCD signing surfaces are actual glass, providing a durable signing surface. The signing surface of our non-LCD pad is a strip of hardened vinyl that can withstand millions of signatures.

#### The Competition?

Some of our competitor's low-cost pads use delicate resistive film that scratches easily and wears quickly even under normal use.

### The Best Warranty:

#### RapidCare Overnight Exchange

Scriptel pads include our 2- or 3-year overnight exchange program, called "RapidCare."

If your pad fails under warranty, you will receive a replacement the next morning (depending on when the support ticket is received)\*. We also pay for return shipping of the failed pad.

#### The Competition?

Requires their users pay for shipping defective pads back to the factory for diagnostics and repair, which could mean 2 or 3 weeks, or more.

\*See <https://scriptel.com/rapidcare/> for details.

### The Industry's Best Service:

#### Scriptel's Domestic Support Team

Scriptel's support team are knowledgeable in all aspects of our hardware and software products and strives to answer questions in real time.

#### The Competition?

Former customers, as well as software vendors, of the competitor have shared experiences of 48-hour call back responses.

### The Best Software:

#### Independent Software Vendors prefer Scriptel!

We offer 3 programming development toolkits for different environments:

proScript

For Windows  
Desktop applications

easyScript

For Cloud and Web  
Browser-based apps

omniScript

For robust interactive  
Web solutions with added  
security and flexibility

#### The Competition?

The competition's toolkits have been described by some former integrators as "antiquated and outdated."
