The Best Choice is Scriptel!

Our reliability, warranty, software, and support are unsurpassed in the eSignature industry. Learn why Scriptel is the best choice for eSignature capture!

The Most Rugged Durability:

Glass Signing Surfaces

All of Scriptel's LCD signing surfaces are actual glass, providing a durable signing surface. The signing surface of our non-LCD pad is a strip of hardened vinyl that can withstand millions of signatures.

The Competition?

Some of our competitor's low-cost pads use delicate resistive film that scratches easily and wears quickly even under normal use.

The Industry's Best Service:

Scriptel's Domestic Support Team

Scriptel's support team are knowledgeable in all aspects of our hardware and software products and strives to answer questions in real time.

The Competition?

Former customers, as well as software vendors, of the competitor have shared experiences of 48-hour call back responses.

The Best Warranty:

RapidCare Overnight Exchange

Scriptel pads include our 2- or 3-year overnight exchange program, called "RapidCare."

If your pad fails under warranty, you will receive a replacement the next morning (depending on when the support ticket is received)*. We also pay for return shipping of the failed pad.

The Competition?

Requires their users pay for shipping defective pads back to the factory for diagnostics and repair, which could mean 2 or 3 weeks, or more.

*See <https://scriptel.com/rapidcare/> for details.

The Best Software:

Independent Software Vendors prefer Scriptel!

We offer 3 programming development toolkits for different environments:

proScript

For Windows
Desktop applications

easyScript

For Cloud and Web
Browser-based apps

omniScript

For robust interactive
Web solutions with added
security and flexibility

The Competition?

The competition's toolkits have been described by some former integrators as "antiquated and outdated."
